

# SCOLIOSIS WEEK 2026

Organized by **Pediatric Spine Academy**

 **19<sup>th</sup> - 25<sup>th</sup> April, 2026**

 **Amrita Hospital, Kochi**

Exclusive Partner : **JAYON**

**Scoliosis Week** is a premier spine surgery training program, offering a week of intensive, hands-on learning in elective spine care. Popular among orthopedic and neurosurgical trainees, it features expert-led sessions from pre-op to post-op.

The course has been organized across Asia Pacific since 2009. The current program is organized at **Amrita Hospital, Kochi**, in association with the **Pediatric Spine Academy of India** with the involvement of many pioneers in deformity correction. The course curriculum and content remains virtually unchanged, the faculty participant ratio is the same, as in the past. So we expect to deliver the same intense, exciting and yet challenging hands-on experience to all the participants. **Jayon** has been in the forefront of the spine implant industry in India and we are happy to be associated with them for the conduct of this course. Since the course is typically over subscribed months in advance **I encourage you to apply as soon as possible.**

In partnership with **Jayon**, we invite you to apply early - spots fill fast.

## · FACULTY ·

**Dr. Sajesh K Menon**  
Course Chairman

**Dr. K.V Menon**
